

MOBILE SOLAR TRACKER

**OUTPUT:  
UP TO 250 kWh PER DAY**

**SAVINGS:  
UP TO 70 L DIESEL PER DAY**

### MOBILE POWER, ANYWHERE

The Mobile Solar Tracker is deployable anytime, anywhere, even in off-grid locations.

### MAXIMUM EFFICIENCY

The hydraulically driven deck automatically follows the sun for optimal solar efficiency.

### POWERFUL, CLEAN ENERGY

Generate up to 250 kWh and save 70 l diesel per day.

### RELIABLE POWER, ANYTIME

Combine it with multiple energy sources such as battery power, grid power, and/or wind energy.

# MOBILE SOLAR TRACKER

Harness the power of the sun and supply your project with sustainable energy.

## TECHNICAL SPECIFICATIONS

POWER PER DAY:  
**25 kWp**

DIMENSIONS:  
**9m x 2.5m x 3.9m**

ENERGY OUTPUT PER YEAR:  
**Up to 25.000 kWh**

MAXIMUM HEIGHT:  
**7.9m**

ENERGY OUTPUT PER DAY:  
**Up to 250 kWh**

OPERATIONAL SPACE:  
**14.5m**

SOLAR PANEL SURFACE:  
**100 m<sup>2</sup>**

ELECTRICAL CONNECTION:  
**3x 230V, 1x 16A  
380V, 1 x 32A 380V**

**EASILY  
EMISSION  
FREE**
