

POWER TRAILER

POWER: 900 kVA

CAPACITY: 1.2 MWh

QUICKLY DEPLOYED

Save time on setup and installation with this plug-and-play battery solution.

HIGH POWER OUTPUT

The three batteries deliver high power (900 kVA) and high capacity (1,2 MWh).

EASILY TRANSPORTABLE

Move the trailer easily between charging hub to project site.

READY-TO-USE SOFTWARE

Our in-house software is ready to use and simply to install.

POWER TRAILER

Combine multiple powerful batteries for a strong and reliable mobile energy supply.

TECHNICAL SPECIFICATIONS

POWER:
900 kVA

DIMENSIONS PER BATTERY:
10FT CONTAINER

CAPACITY:
1,2 MWh

DIMENSIONS TRAILER:
13,62 x 3,20 x 2,48 M

MARNIX GRIFFIOEN

Account Manager Construction & Infra at Greener

The trailer functions as a mobile mega battery and is installed in no time. The special software enables the project to use significantly more energy with higher power, all emission-free.
